## AFOBAC-S

Cefoperazone + Sulbactam INJECTION

### **Cefoperazone**

- » Semi-synthetic 3rd generation cephalosporin effective against a wide range of aerobic and anaerobic gram-positive and gram-negative bacteria.
- » Used to treat serious infections, particularly against susceptible Enterobacteriaceae
- » Cefoperazone was slightly less expensive than ceftriaxone with an overall successful treatment rate of 48 (80%) of 60 for the cefoperazone-treated patients and 35 (70%) of 50 for the ceftriaxone-treated patients

### **Sulbactam**

- » Inhibitor of beta-lactamase enzyme secreted by certain bacteria that are resistant to beta-lactam antibiotics
- » Attaches to certain PBP and increases the sensitivity of microbial species that are sensitive to antibiotics

Diagn Microbiol Infect Dis. 1992 Jul; 15(5):441-7.

A warrior with long blonde hair, wearing a dark, intricately detailed leather and metal armor, stands in the center of a battle. He holds a large, dark battle-axe aloft in his right hand and a sword in his left. The background shows a chaotic battle scene with many soldiers in similar armor engaged in combat on a grassy field. In the distance, there are trees and a large, stone structure, possibly a castle or a temple, under a bright, slightly hazy sky.

*An essential Nutrient for Brain cells*

# *Intelpro*

*Herbal Memory Tonic*

Mental health is a state of individual well being, in which every person builds the ability to cope with the normal stress of life. Maintaining healthy brain functioning is essential for achieving excellence in life. A healthy brain function is indicated by improved memory, increased learning power and retaining capacity.

Some children lack in developing memory and appropriate I.Q. levels due to nutritional deficiencies or genetic factors. Therefore, brain tonics are often prescribed by physicians to improve memory and other cognitive functions.

**Intelpro Brain tonic** is one such formulation to improve mental well being. It is supplemented with natural herbs that not only improve memory and learning abilities but also reduces stress and anxiety. It calms the mood and helps to promote alertness and intelligence.
